

# City of Loma Linda Official Report

Floyd Petersen, Mayor  
Stan Brauer, Mayor pro tempore  
Robert Christman, Councilmember  
Robert Ziprick, Councilmember  
Charles Umeda, Councilmember

COUNCIL AGENDA: August 16, 2005

TO: City Council

VIA: Dennis R. Hallaway, City Manager 

FROM: T. Jarb Thaipejr, Public Works Director/City Engineer 

SUBJECT: Award Contract for the Installation of a Shade Structure at Leonard Bailey Park.

## **RECOMMENDATION**

It is recommended that the City Council award the contract for the installation of a shade structure at Leonard Bailey Park to David Bang Associates of Tustin, California in the amount of \$23,165.00 and authorize a contingency allocation of \$2,000.

## **BACKGROUND**

On May 13, 2003 the City Council awarded a contract to install playground equipment and picnic tables at Leonard Bailey Park. The picnic tables do not have any cover for protection against the elements. A solid shade structure will greatly enhance the usability of the tables during sunny or rainy days. The structure should be large enough to allow for family or small group gatherings. Staff requested proposals from two companies specializing in this type of construction. David Bang Associates, a contractor with previous satisfactory City experience, responded.

## **ANALYSIS**

The proposal is for a 24' hexagonal, tubular steel framed shade structure. It will have a solid metal roof with a 2' high by 4' wide cupola. The proposed cost for complete construction is \$23,164.87. City staff will accomplish inspection for this project in-house.

## **FINANCIAL IMPACT**

Funding for this project will be provided in Account 04-5320-8250 - Leonard Bailey Park Improvement, \$45,000.

## **AGENDA ITEM 8**
